R17 release of Tajima DGML By Pulse, V15 1.01, with a full list of enhancements and updates is available at R17- The Latest Release by Pulse, Version 15.1.73.6300, If You have a previous version of Tajima DG/ML by Pulse or Pulse Signature. May 5, 2010 Tajima DGML has been released with the following enhancements and updates: Full Feature Software. Driver Update to the latest. This invention relates to a hot-melt adhesive composition. In a particular

aspect, this invention relates to a hot-melt pressure-sensitive adhesive composition. Hot-melt pressure-sensitive adhesive compositions are desirable in that the adhesive can be applied by a relatively simple and economical process, such as by hot-melt spraying. Additionally, the hot-melt adhesive compositions have an inherent good balance of strength and tack, thus simplifying the handling and application of the adhesive when compared to conventional adhesives which require the application of heat for their use. The use of water-based

adhesives as a means of applying an adhesive to a substrate is well known in the art. Generally, water-based adhesives are problematic in that, when applied, they rapidly become tacky, have poor cohesive strength, and require the application of heat to allow for release from the substrate. Hot-melt adhesives are desirable because they can be applied without the need for heat. However,
