At efilecase.com, submitting an application to the USPTO can be done in three simple steps. First, choose the type of patent you want to file a patent for (patent class) and select a fee. Second, create an account and set up your payment method. Third, submit the application with its accompanying materials. We will review your application and submit it to the USPTO for processing. The USPTO will issue your patent, and efilecase.com will charge your credit card or bank account for the filing. What is a Patent? A patent is a government-granted exclusive right to an invention or idea. There are different types of patent: utility patent, design patent, plant patent, and so on. A patent gives its owner the right to prevent others from manufacturing, using, or selling the invention in the U.S. In addition, it may lead to significant profit from selling the product that has been patented. Why File a Patent? Sometimes a person has an invention that he or she wants to protect. There are different types of patent, and each can be filed for different reasons. A utility patent protects an invention that provides a new use for an existing material or substance. A design patent protects an artistic or aesthetic aspect of e79caf774b
