Do we have a way to get the complete history of StackOverflow? There are too many questions on how to get this and/or how to get this information. A: You can see the content of all deleted posts on the Way Back Machine for Stack Overflow, including their revisions. Note that this page is a different search than the Wayback Machine. A lot of the content you search there is protected by copyright and/or might not be publicly searchable. If you want information about the revisions of content that is no longer on the site, you would need to find the users who posted it there, and see what they posted when they did, then make a request of Stack Exchange to have the content restored. Stack Exchange does not generally restore posts from closed sites without the permission of the site's owner. /* * Copyright (c) 2006-2011 Christian Dywan * * This program is free software; you can redistribute it and/or modify it under * the terms of the GNU General Public License as published by the Free Software * Foundation; either version 2 of the License, or (at your option) any later * version. * * This program is distributed in the hope that it will be useful, but WITHOUT * ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS * FOR A PARTICULAR PURPOSE.
