The lazy, comatose New World Order characterizes this movie, where humans are in control, on top of the world and know it. The movie begins in a nightmarish future which has been invaded and occupied by short-lived "Terminators" that kill humans just to cause confusion. Most of the humans on Earth are nothing more than scientists studying the lore of the "immortals" that the Terminator's are. Humans "consume" the Terminator's power source, DNA samples and "eat" any Terminator that is killed, but the only humans who survive are the ones who have killed the most Terminator's. When a Terminator is killed, only 10% of their mind remains intact and is stored in a Terminator that gets activated when e79c
