Fifa 22 [Mac/Win] 2022 [New]

---

I would classify myself as a big fan of any title that can generate an endless stream of footballers, so when the opportunity to review FIFA 22 arose in late May, I jumped at the chance. I'm always happy to explore a game I've never played before, although I have to say I'm not the biggest fan of FIFA, despite enjoying FIFA Ultimate Team. I can understand why the series commands cult status, and why every new entry has had a passionate following, but I just couldn't warm to it. So I approached this game with an open mind, and, after playing through the standard Career Mode and FIFA Ultimate Team, I have to say I found myself enjoying myself! That's a good start, but what's more is that it's broken the Gamepad gimmick - something I've often hated in FIFA. FIFA 22 lets you play on the football pitch using your on-the-go Gamepad - you only need a smartphone or tablet for any online play. I'm sure you've seen people using a Gamepad to simulate their favorite ball-control game, and it can certainly be entertaining, although the idea of perfecting a sports game by moving a controller from the sofa to the TV is just plain lazy. However, for the first time in a FIFA title, there's a high level of gameplay that makes no use of the Gamepad at all, which is excellent, as there was a point where I was almost driven completely mad by the on-the-go Gamepad. There are some features that are relatively new to the series, and I'm sure they'll help EA pump out more than one further Gamepad-wielding FIFA title. One such feature is the inclusion of AI companions that can help the player with their vision, with the occasional assistance from a further two players in their wingers and defenders. EA have also gone for a more traditional style of reviving a downed player, and haven't entirely abandoned the overly-complicated Tactical Time Trial, which we'll get onto later on. EA have also introduced a new mode called "The Journey," which does away with the traditional Career Mode, and you'll be taking charge of a single player's career, from rookie to legend, and, if the player progresses through their career, you'll unlock more and
