The 1.2-version of EQEmu has some regressions (with a to do list to fix these regressions) as I never fixed EQEmu to the latest version (as it crashed all too often). Search Forums. Re: EQEmu 4.1.0.10 Beta [DFU]Riley. Ask for help / send in a bug report (if youÄ d like). If you still have a topic and no answers, itÄ s probably that youÄ re in the wrong section.Normandy Hi I have been flying it for a year now, and just had a little issue with it. my self shield was stuck and i accidentally removed it, now the toilet wont work, and i cant fly it because im stuck behind a power line, and i can't figure out how to fix it, can anyone help me the 6 screws are not coming off. Normandy I'm not a mechanic, but I know it's been a long time since you bought this, but it's possible that the plane has worn out at the points of contact with the toilet. If you're positive that the toilet doesn't hit a frame screw, you could try to gently remove the screws where you can and then try to see if any of them have given way. If you don't hit any of the screws, I'm at a total loss.
