Sketchlist 3d Pro v4.Valentine's Day is here and all of us are feeling the love! But do you know how to create the perfect kiss in Photoshop? Well, we have just the tutorial for you guys. Learn how to use the basic shape and fill to create the perfect kiss, with or without the lips. And then, you can even add a couple more hearts on top. You can even turn it into a word art! I would love to have you join me in the Cute Kisses Photoshop tutorial. But I first want to know what you think of it. So leave a comment below. Photoshop Tutorial Step 1 - Create the Hollow Heart Open Photoshop and create a new document. Keep the size you want the heart to be. Let's start with the heart shape. So first, draw a circle then, cut it. Once it's cut, add a gradient fill on it. Step 2 - Add the Lips Now, just double click on the circle shape, and it will open up a list of tools. Just add two hearts - the inner one is a heart with no lips. Just add a gradient fill on it and call it Done. Step 3 - Add More Lips Now, select the inner heart you just created in the last step, and press the eye icon on the top right. You should now have an eye tool. Just draw a new circle, and you will get a circle with a mouth inside. Just place it where you want it to be. Step 4 - Add the Filler Now, just add a gradient fill on top of the eye. Step 5 - Add the Nose Add a square, make it transparent, and add a gradient fill to it. Step 6 - Add the Teeth and the Eyes Add the teeth and the eyes, as you did in steps 4 and 5. Step 7 - Add More Details Add some details to it, like the fins or the cheeks. Step 8 - Add Some Words Add a text, just as you did in the last step.Q: What does `6d1f23a050
