Benthic Software Golden 6 V60642 Incl Keygen For 16Search is the main focus of the present invention, but the invention is equally applicable to any type of content, such as video, images or text. In particular, the invention is applicable to navigational or content tools, such as preview functions or image and text annotation and the like. The invention is also applicable to "tagging" functions that provide a user with the ability to categorize a piece of content based on one or more tags or keywords. The invention is also applicable to the capability to link one content item to another content item, which makes it easy to associate or "mark-up" one piece of content with another (e.g., an annotation of a video can link or "map" to a video file on the user's hard drive). Note that the terms "tagging" and "labeling" are generally used interchangeably and/or as synonyms. Furthermore, since the current preferred embodiment of the invention is implemented as software and/or an add-on that can be inserted into a navigational or content tool, the invention can be provided via a downloadable add-on program or online-based services, including but not limited to user-based, application-based, online tool-based, and IT-based services. The term "add-on" refers to the capability of adding functionality to an existing software or application, such as the aforementioned "navigation tool," without having to buy a new copy of the program or application. In general, the invention is not limited to any particular type of software or
