
Beretta Idra Exclusive 20 Service Manual

beretta boilers are manufactured using modern technologies and fully comply with european safety, economy and efficiency requirements. the idra 24 csi model is made in accordance with the most promising technical developments and is able to meet the needs of a modern residential building. there are many different types of boilers and the idra range is one of the most popular. idra is a term which relates to heating and is the registered trademark of beretta. the idra range is a collection of energy-efficient boilers designed to give you a perfect temperature every time, with optimum user friendliness and maximum comfort. 2 examples of many past cases: beretta was the first italian company to produce a wall-hung gas boiler and, with the idra meteo model, the first to produce a boiler specifically designed for outdoor installation. an orientation to progress which today increasingly takes an environmental slant, with a view to excellence and cutting-edge technology. beretta solutions target improved energy efficiency together with maximum comfort, while combining the intelligent use of different energy sources. a concrete commitment aiming at an increasingly eco-sustainable future. beretta is erp-ready. for years, beretta has been totally committed to a system logic which integrates multiple sustainable and renewable energy sources, in perfect harmony with the environment around us, for the home comfort of millions of consumers who use beretta products every day. for this reason, in advance, the technological and human resources of beretta are entirely focused on offering today what will be required by the future rules.
