quickly create high-quality, editable documents, and convert PDFs. We've taken the work out of transforming PDF files into powerful, editable Microsoft Word, PowerPoint, and other Office documents. From the PDS group: Editors should ignore this last note: you need to open the task.exe, and drag open the task. In this case will be a file, in a folder with the name of the.exe file. And when you will open the task.exe it will appear, click on it and it will be the PDF converter opens. The software converts scanned documents and images directly into editable documents. Using the software is quite easy as it doesn't have a steep learning curve. You will be able to convert documents directly from within the Microsoft Office applications. You can then view the converted documents with the Microsoft Office program as well as convert them into other formats. Basic Features View PDF files in a split window with annotate, fill form fields, stamp, annotate from the Quick Open taskbar task drop down menu. Easily fill forms from PDFs by directly typing into pre-filled form fields or fill them in using the information right from the PDF file. Add document stamps or choose from the many built-in stamps like CMYK Color, Spot Color, Embossing, Highlight, Margins, Tint, Borders, Anti-Aliasing, Fax, Watermark and many more. Add document signatures with Certificate Signing, the Electronic Signatures Control (ESC) standard and Microsoft Certification, or Easily perform calculations on text and annotations using the built-in character recognition. Plus convert PDFs to a number of other file types like Microsoft Word, Excel, PowerPoint, WordPerfect, HTML, RTF, and many more. With the improved Text and Shape Recognition, create text boxes, stamps, fills and annotations, plus shape recognition, including OCR, text to and from graphics, and so much more. 5ec8ef588b
