i'm very happy with this crack and hope you are too. it's not perfect and requires some refinement and a lot of work, i'm sure, but if you have any suggestions or improvements i want to hear from you guys. i have realized how much i dislike working on a mac. so i just bought myself a pc laptop and decided that i'd try to use it to create a crack for all solidworks works. i can't figure out how to create the new crack folder since i'm a total noob and the hard drive on the mac is corrupted. i just wanted to try out what i have already coded and created and i'm sorry if i have anything incorrect written in the code or is wrong at all. but how would i make a crack for only the activator for solidworks 2015. the crack i made for 2014 worked for anything i had opened. but does this method work for 2015? or, or do i have to create two different crack folders, one for activator and one for solidworks. and if so, how do you make it work for 2015 if the crack has already been made for 2014? i'm still a noob. i have a question about the password. i went to the folder the crack installed itself in and opened it and i'm given an error (can't remember the name of the file). i wrote a password in the text file but i can't figure out how to open it. then i deleted the password and tried to save it but it did nothing. when i try to make a new password i get an error that says that the folder doesn't exist and that it needs a name. is this something i'm doing wrong or that's how it works? extract the file. for me, on windows 8.1, with the zip file name solidworkssoftwareactivator-sp3-x64-v12-ea_v1.0.4.8.zip, it extracted a file with the name solidworkssoftwareactivator-1.8-x64-win32_v1.zip.
