I deleted the old one and entered the new one. I think the old one just lagged a bit more. The new one is starting to work on "Getting Started" it will automatically start up to take you to your profile. This is the original Microsoft Office Professional Plus Office 2010 Serial number comparison software. The program is a standalone tool with no installation is needed. The user can run the program on the latest Windows 8 and also on the older Windows The problem is, I can't seem to login to any Microsoft accounts or even the My Account section of my new Microsoft account. I've tried using a Microsoft ID, which is different from my email address, so I can't even try 5ec8ef588b
