This was a new installation; I previously had MEP Plus 2017, which I uninstalled beforehand. My purchase included NewBlue Titler Pro 6 and NewBlue Elements 3 Ultimate. I summoned these effects add-ins via the Activate Content Pack(s) function, using the provided coupon codes, following through with downloading via the Extra Effects menu. The packages downloaded and installed as expected (serial numbers returned). After restarting MEP, when I open the Effects menu, I see the additional icons for NewBlue Elements and Titler effects.
