Display your current system time in a more-readable form using removable clock gadgets. Display your system time in a format that will be displayed automatically in any dialog box or form, as well as in the Windows desktop. Next to any window, you can place buttons. True icons (ICONS) along with PNG, JPG, GIF, or BMP files can be used to customize the look of these buttons. Each button on Windows can display a graphic, text or both. Even a small circular progress indicator can be added to a button! Display a customizable activity icon for any folder on your Computer. True icons (ICONS) or icon libraries are usually required to customize icons displayed by Windows. On Display accepts these files as well as traditional graphic formats and automatically creates the ICO files required by Windows. On Display: The Quick Search Box. Just type in a term into the text entry box and press the "Search Now" button to perform a Google-like search. In Windows Explorer, pressing the "Escape" key will close the Quick Search Box. Cutting-edge and safe! Smart Screen is essential to make sure users can keep their personal information private. Displays pops up every time a screen saver is disabled, and safe screen savers can be set up before the first screen saver. On Display: Screen Capture. Capture the current screen as an image. You can also take a movie. When you click capture, On Display will open a special dialog in which you choose a file type, a file name, and a location on your disk. The default file format is PNG. If you want to save the image directly to disk, just click OK.
