But, the problem with the "PC cleaners" is that they are unable to detect errors inside the registry properly. These issues are very deep rooted in the registry and are very difficult to find. But, the problem with the existing "PC cleaners" is that they make a lot of noise and band aid to it and do not properly understand the concepts of fixing a computer. published:16 Jul 2018 views:2318 Please comment with any corrections or improvements. published:13 Aug 2014 views:152067 To keep the computer running smoothly, it is important to frequently clean the
